Sir:

In the Notice of Allowability dated July 19, 2006, the Examiner has set forth "Reasons for Allowance." The Applicants respectfully traverse these Reasons. Specifically, it is submitted that the subject matter of the allowed claims are patentable for their respective recitations of claimed combinations as a whole. That is, the patentability of the claims rests on the combination of recited elements and limitations. As such, Applicants submit that no one element or limitation in particular should be deemed to impart or be required for patentability of the claims. Furthermore, Applicants also submit that the dependent claims are allowable not only for their dependence on the allowed independent claims, but also for the additional subject matter recited in each of those dependent claims.

Respectfully submitted,

PILLSBURY WINTHROP SHAW PITTMAN LLP
